W/216/35.

28 February, 1943.

Director of Education.

With reference to your letter No.2859/3/1 dated the 16th February, 1943, I am directed to authorise the construction of two latrines at the Elementary-Secondary Boys' School, Tulkarm, three at the Elementary Boys School Tulkarm and five at the Girls School Tulkarm.

2. It is understood that the total cost of this work will be LP.750 of which the Local Education Authority will contribute the sum of LP.200. The balance of LP.550 may be provided by supplementary provision under a New Item of Head XIII Education quoting savings under item 25 of that Head or under any other item controlled by you.

Signed: W.V.Fuller

for CHIEF SECRETARY.

Subject : Erection of New Boys' School for Local
Education Committee - Tulkarem.

Reference: My B/119 of 24.5.33 to Contractor
Copy to you.

Following the abandoning of the first site
and transfer of building to final site it has been found
that the following variations are necessary and your
covering approval ~~approval~~ is requested.

ITEM NO. ADDITIONS.

17	Excavation on final and first site : 52.325 M3 @ 50 mils per M3 =	LP.2.616
11	Rammed filling : 153.295 M3 @ 30 mils per M3 =	4.599
4	Masonry in lime Mortar 50 cm. 164.95 M2 @ 500 mils per M2 =	82.475
10	Partitions Wall : 6.83 M3 @ 600 mils per M3 =	4.098
17	Pointing : 200.95 @ 040 mils per M2 =	8.038
18	Plastering in lime : 31.265 M2 @ 060 mils per M2 =	1.876
19	Colourwashing : 31.265 M2 @ 010 mils per M2 =	0.313
23	5 cm. Doors : 7.66 M2 @ LP.1.000 per M2 =	7.660
25	Painting 3 coats : 15.30 M2 @ 070 mils per M2 =	1.072
3	Masonry in Latrines 30 cm wall : 7.75 M2 @ 400 mils =	3.100
Total		LP. 115.847

ITEM NO. DEDUCTION

1	Preparing Site Job :	LP. 5.000
2	65 cm Wall : 53.57 M3 @ 800 mils per M3 =	42.856
3	30 cm Wall : 19.80 M2 @ 300 mils per M2 =	5.940
4	P.C.C. 1:3:6 - 11.17 M3 @ LP.2.500 per M3 =	27.925
		LP. 81.721

ADDITION	LP.115.847
DEDUCTION	<u>LP. 81.721</u>
	LP. 34.126
Less rebate 26%	<u>8.873</u>
	LP. 25.253

The alteration in site also entailed that the verandah previously designed to be level with the ground became one to one and a half metres high and had necessarily to be protected by a parapet wall for which the following star items are submitted for approval.

STAR ITEMS.

a) Excavation in rock :	
4.875 M3 @ 200 mils per M3 =	LP.0.975
b) Rubble Masonry in Lime for foundations	
29.900 M3 @ 400 mils per M3 =	11.960
c) Steps for access :	
14 pieces @ 850 mils each =	11.900
d) Parapet Stone :	
45 M.R. @ 400 mils per M.R.=	<u>18.000</u>
Total	LP. <u>42.835</u>

The total cost of this building including LP.30.000 for supervision but excluding the LP.35 which the Local Education Committee agreed to pay the Contractor as damages for transferring of site is as follows

Estimate as per NA/35 of 21.1.33	LP.963.909
Variation Order	<u>25.253</u>
	989.162
Less 26%	<u>257.182</u>
	731.980
Star items	<u>42.835</u>
Supervision	<u>30.000</u>
	<u>804.815</u>

My B/119 of 14.5.33. *114*

1113

In view of the Local Education Committee's direct settlement with you so far as loss of time and transport of materials from original to final site, it appears there are no star items requiring the D.P.W.s approval, only an increase in items for which measurements will be taken and paid for as per contract rates.

So far as your claim for extra time is concerned I regret that there is no reason why the original time limit which expired on 1.9.33 should be extended any further than 15.9.33, in view of the fact that the delay occasioned by the transfer of site did not exceed fourteen days. Consequently you are instructed to complete the building by 15.9.33 after which date the penalty of LP.1 per day will be enforced.

REFERRED TO *125*

Engineer in Charge,
Nablus

Subject : Erection of Boys School Tulkarem
Contract No. NA/4. 113

Reference: Your letter dated 14.5.33.

I beg to draw your attention to the following :-

1. At the decision of both the Local Education Committee & Foreman i/c Tulkarem an estimate of LP.15 in lieu of loss & damages and LP.20 for transporting the materials and removing stones to the new site.
 2. The inhabitants of Tulkarem have paid me the LP.20 through D.O. Tulkarem but the LP.15 is still being held up by the Local Education Committee and I beg to request that you help me in obtaining the LP.15 please.
 3. As the new site has not water I beg that water be supplied from the Agricultural School, and I am ready to pay the expense of the pipes.
The following are required.
 4. Excavation for foundations LP.5
 5. Building foundation. LP.42
 6. Levelling the ground LP.25
 7. Earth filling. LP.10
 8. Building Stair case LP.03
- LP.55

Due to the delay for the period mentioned above I shall be glad if the terms of the contract be made to commence from 1.6.33, and my requests as claimed above be approved please.

Director,
Department of Public Works,
Jerusalem.

The installation of a trough
type latrine similar to that installed
at the lock-up Beersheba (plan No.H/909/1)
is agreed to providing adequate flushing
arrangements are installed.

2. The flush tank at the head of the
line should be of adequate capacity and
have sufficient head of water and flow to
ensure complete flushing of the three latrines.

3. There should be a tap in each latrine
for ablution purposes.

4. The latrine building as designed
should be increased in breadth so that the
doors when open do not interfere with the use
of the urinal space.

5. A wash-hand basin should be provided,

6. As water will be laid on, a drinking
water fountain of standard school type should
be installed in the play-ground with concrete
stance and run-away to soakage pit for waste water.

7. Will you please submit details of the
arrangements as suggested for endorsement.

INVITATION TO TENDER

NA/27

LATRINES

1. You are invited to tender for erection of Boys' School, Local Education Committee-Tulkarem.
2. Estimates and plans of the work may be inspected by you and any further particulars desired may be obtained on application to Engineer in Charge Nablus District between hours of 10.00-12.00 daily except on holidays.
3. Tender form is attached.
A complete set of the estimate, plans and contract form may be obtained by approved Contractors on written application to Engineer in Charge Nablus District accompanied by a money order for L.P. 1.000
5. Tenders enclosed in sealed envelopes marked on the outside "Tender for Boys' School Local Education - Committee Tulkarem." must be delivered at the office of the Director of Public Works Jerusalem by 10.00 hours on the 1st March 1933.
An addressed envelope is attached. Necessary postage stamps should be affixed unless the envelope is delivered by hand.
6. No tenders will be considered but such as are submitted on P.W.D. Tender form No. PWD 18.
7. The Palestine Government does not bind itself to accept the lowest or any tender.
8. If your tender is accepted you will be required to make a deposit of L.P. 10% of estimate before signature of the contract.
9. The name of the successful contractor will be published in the Official Gazette. No separate communication will be sent to unsuccessful contractors.
10. The successful contractor will be required to insure with an approved Insurance Company against accidents to his workmen to cover risks under the Workmen's Compensation Ordinance 1927. The insurance policy taken out by the successful contractor will be examined before signature of contract documents is permitted.

Subject : Erection of new school building
Local Education Committee - Tulkarem
Reference: Your 3/4/1 dated 9th January 1933
& District Officer Tulkarem's 7/17 of 5.11.32
attached.

In compliance with your instructions in the
above I submit Plans No. N/168 & N/168a for your final
approval. Estimate and Specification attached.

Referring to the Drawing Office comments:-

1. Due to the presence of the Girls' School on the site the new building must be so sited that the entrance looks away from the school, also the prevailing winds make present orientation preferable.
2. Height of rooms and cill amended as suggested but the original thickness of the walls has been retained as the cost, in Tulkarem, of double stone walls is cheaper than one with stone and concrete backing.

The construction of the roof and floor has been amended as suggested, but the verandah is left as originally proposed.

3. Suggested amendments adopted.

4. The total sum available is LP.940 but if the lowest tender exceeds this the building will be reduced by one room.

The D.C.N.D. has provisionally approved the Local Education Committee's request that the work shall be given out under the open tender system and I shall be glad if you will state whether you also agree. There is no objection as far as this Department is concerned.

Will you please take steps to obtain the Director of Education's approval and return plans and estimate at your earliest convenience.

REPLIED

90

A.D.P.W.

Subject : New School Building, Tulkarm

1. It is desirable that the windows should face North and South; therefor the orientation of the building should be as shown in yellow on site plan.

2. Height of rooms to be 4.00 m only; height of window sill from floor to be 1.20 m. Thickness of external walls may be reduced to 40 cm; the interior walls to be 30 cm. No rolled steel joists to be used for roof; reinf. P.C. concrete girders are preferable.

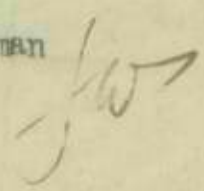

Floor: Tiles or steel ^{crete} finish preferable to ordinary concrete.

Verandah: Reinf. P.C. concrete structure would be preferable.

3. Latrine. The roof slab should project (say 25 cm) from the walls. Details of channel are to be carried out in accordance with drawing No. H/909/1, attached.

4. Cost not to exceed LP.940.-

Public Works Department, ✓
Jerusalem.

Subject :- Grants to Local Authorities
for School Buildings:
Construction of new school,
Tulkarm.

Reference:- Your 3/4/1 dated 30th
September. 78

Your paragraph 1. Your presumption is correct.

2. Your paragraph 2. On my recommendation the Chief Secretary has approved the allocation of LP 440 for the new school at Tulkarm. The sum was reduced by me from EP.500 to EP.440 after my letter No.3234/PE of the 29th of August had been despatched.

142 in 3/8
3. I understand that the Local Education Committee of Tulkarm is prepared to contribute LP 500 towards the building. If this is the limit of the amount to be contributed locally, the total sum available will be EP.940 and not EP.1,000. It would perhaps be advisable for your Engineer in charge Nablus District to confer with the District Inspector of Education, Samaria as to this point before he proceeds with drawing up plans etc.

Reference :- My 37/8 of 25.9.29 and your 38 of
27.9.29 to D. of P.W. Jerusalem ,
copy to me. 67

Water supply to above school has been and is still
supplied since 10.9.29 .

2. In my recent correspondence I requested you to kindly arrange for a water meter so as to have an accurate ~~xxxx~~ account of water consumed and up till now no reply has been ~~xxx~~ received. If the account for water consumed by the girls' school has not been paid to the Municipal Council at Tulkarem arrangements will be made by the authorities concerned to cut off water from the school at which time it will be exceedingly difficult to keep the school running and the Dept. will then not take such responsibility. (Copy of the Mayor's letter No.64 dated 6.11.29. to that effect is herewith attached).

3. If the P.W.D. cannot afford to fix the water meter required and pay for the water consumed, I shall be much obliged if you will let me know whether you agree that I may make such arrangements for water and submit receipts as is the case at Tulkarem Boys' School.

4. Kindly let me have an early reply.

Subject :- Tulkarem Girls' School, 67
Water-Supply.

Reference:- Letter No.B/38 dated 27-9-29
of Engineer in Charge of
Nablus District.

The Tulkarem Girls' School is not on the Village School basis, and is therefore entitled to water-supply as any other Town School's. It is regarded by this Department as exactly parallel to any other town school.

2. The inhabitants of Tulkarem who have provided a school building from local funds and thus relieved the Government of the payment of rent should not be penalized by the imposition of an item of recurrent expenditure which is met elsewhere by Government.

House of Comm
did not run
it was
16/11/29*

I should like to have your ruling on whether Government is responsible for water supplied to all or certain schools staffed by the Dept. of Education.

In the case in dispute, the Girls School Tulkarem, the building belongs to and was built by the Local Education Committee, it is supposed to accommodate 150 pupils so that the yearly consumption at say 2 galls per head means approximately 400 M3 per year at 70 mils per M3 or L.P. 28 per year ($\frac{150 \times 2 \times 300 \text{ days}}{220}$)

If the Government is to be responsible for this, it follows that every village owning a school staffed by the Education Dept. will have equal grounds to claim payment for water. The intricacies of the question are apparent but some definite ruling is required and until receiving your advice and instructions I am refusing all further liabilities on an already over burdened "Water Supply and Conservancy Vote".

No. 37/8

Education Officer
Samria District

25th, September 1929

Engineer in Charge
Nablus District
Nablus

Subject :- Water Supply - Tulkarem Girls
School

Reference :- Your B/38 dated 21.9.29. 65

This school is a Government Town School since the occupation and all accounts and expenses are carried out just the same as in the boys' school.

2. Water was supplied to this school, when in the old building, through pipes installed to the Municipal well but not sufficiently. The servant used to draw also water from the well of the mosque neighbouring the school and thus the P.W.D. was not asked to pay for the water.

3. As the school in question was moved to the new building and pipes were installed, the Municipality has the right to claim for the water supplied and payment to be effected by the P.W.D. as is the case in the boys' school. I therefore beg that you will kindly approve of fixing the water Meter required and the payment for water. If you doubt these informations I beg that this case be referred to the Director of Public Works Dept. so as to take up the matter with the Director of Education.

No. 1375

Reference to
the letter
dated 13.12.55

Subject: - Water supply - Thiruvananthapuram

Reference: - 1375 dated 13.12.55

This school is a Government school and the
communication and all accounts and expenses are carried
out from the school as in the past.

2. Water was supplied to this school, when in the
old building, through a pump installed in the building.
The pump was not working and the water supply was
interrupted. The school authorities have been asked
to get the pump repaired and the water supply restored.

3. As the school is situated in a remote area, the
pump and other equipment are not easily accessible and
the cost of repair is high. The school authorities
have requested for a grant to meet the cost of repair.
The grant is being sanctioned and the work is being
done. The school authorities are requested to submit
the bill for the repair work to the District Office
for payment.

Samarra

Subject: Tulkarem Girls School. W.S.
Reference: Your 37/8 of 19.9.29.

I am under the impression that the a/m school cannot be considered as a Government School, any more than the numerous village schools which are staffed by your Department.

My liabilities and commitments against "Water Supply and Conservancy" are such that I cannot accept anything further and regret therefore that I cannot either fit a water meter to the a/m school nor pay for water used therein.

Subject :- Tulkeram Girls School *A. J. P. W. vide*

(47) & (48)

To complete the construction of the above mentioned school it is necessary to provide suitable latrines with automatic flushing system. The plans and estimates of same amounting to LP.167 were prepared by the Engineer i/c Nablus. The Tulkeram Educational Committee have, as I understand from the District Officer Tulkeram, approved the plans which are in possession of the Engineer i/c Nablus, and they are ready to deposit with the Sub-Accountant Tulkeram the sum of LP.167 as soon as the Director of Public Works has agreed to have this additional work executed by his Department.

*and in these
circumstances
I think that
Govt. should
be authorized
to construct
the latrines*

2. In this connection I may point out that, since the whole of the Tulkeram Girls School has been so far constructed under the supervision of your Department without going into the lengthy detail of formalities, I see no objection to the carrying out of the present additional scheme as a supplement to the original building and shall be obliged if you can kindly put it into execution as early as possible, as the matter is very urgent.

D.P.W.

District Officer
Tulkarem
-----Seen by D.P.W. -
File
ben

I regret that the Government is not in a position to make further connections to its water supply at Tulkarem. The pump is broken and it is a possibility that supplies from this well will not be renewed permanently. 18/10

2. You specially require flush latrines therefore I recommend that arrangements be made by your town for the necessary water.

3. Should connections to the Municipal Supply (Municipal Garden Well) have to be made and you insist that this is a Government charge in fixing the piping, I can as a special concession place this item in the Minor New Works List for the next half year but it will stand its chance of not being approved and cause endless delay. Therefore it is more expedient if the Municipality or Educational Authorities make all necessary arrangements.

Subject :- Water supply to Tulkarem
----- Girls' School.

Reference:- District Commissioner
----- Northern's 324/116 of
28th August, 1928.

There are two points of importance to the
issue :-

- (a) the comparative cost of the alternative installations;
- (b) the ultimate incidence of the capital and recurrent charges, upon Government or upon the rate payers of Tulkarem.

2. I shall be obliged for your opinion whether the connection with the Government main is appreciably easier and cheaper to effect and maintain than the connection with the municipal main.

3. After the enactment of the Education Ordinance 1928 it will be desirable, though not legally necessary, that such services as water supply should be a charge on local education authorities. Therefore, other things being equal, it is preferable to connect with the municipal main.

Tulkarem
15th, August, 1928

District Commissioner
Northern District
H a i f a

Subject :- Girls School Tulkarem.

I beg to submit that the new Girls school is about to be completed and it is hoped to use it as a school as from the 15th of next month.

The school is situated out of the town and the drawing of water from the municipal reservoir or the fixing of pipes from the main of the municipality to the school will cost the Government continual, expensive and unnecessary charges.

The Boys school of Tulkarem is drawing water through pipes connected with the main of the Government.

There is a water engine run by the Public Works Department at Tulkarem which gives water to the District Offices, Police, Prison, Clinic and school etc.

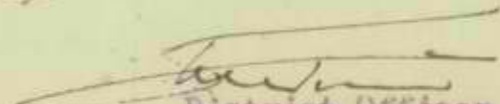

For the purpose of obviating the unnecessary expenses it would seem desirable and advisable if the Girls school is connected with the main of the Government through 1" pipes similarly to the Boys school.

I represented the matter to the Engineer in charge Nablus District. I was informed that he has no funds allocated for it.

Whereas this matter concerns the P.W.D. and the Education Department, it would seem advisable to ask the Directors of P.W.D. and Education Depts to arrange it between themselves.

May I be permitted to reiterate that it would be difficult to open the school if the pipes are not fixed in due course please.

A photograph of a piece of lined paper, possibly a notepad or a page from a notebook. The paper is yellowed and has horizontal lines. At the top left, there is a small drawing of a person with a large head and a small body, wearing a hat and a coat. To the right of the drawing, there is some handwritten text in dark ink, which is mostly illegible but appears to include "by" and "in". At the bottom of the page, there is a printed label that reads "Card 100 and under" in a bold, sans-serif font. The label is oriented vertically, with the text running from bottom to top.

314/1

May 24th, 1928.

Chief Secretary.

Subject : Reconstruction of Girls
School, Tulkarem.

A sum of LP.800 has been provided by the Educational Committee of Tulkarem and deposited in the Treasury for the reconstruction of Girls School at Tulkarem in accordance with plans prepared by this department and approved by all authorities concerned.

2. Tenders for this work were called for by the District Officer Tulkarem and adjudicated by the P.W.D. Northern District Tenders Board. As the estimated cost of the work exceeds LP.500, the tenders should have been adjudicated by the P.W.D. H.Q. Tenders Board in accordance with para 9 (ii) page 126 of the General Regulations.

3. This however occurred before the receipt of your circular No.87 of 6-2-28 ruling that all Government regulations apply to works carried out from private funds and in order to avoid any delay in commencing the work I have authorised the acceptance of the adjudication of the District Tenders Board. I shall be glad to receive your covering approval of the action taken.

14-5-28.

The adjudication of the tenders for the above having been made before receipt of Chief Secretary's circular No.87 of 6-2-28 I authorise the acceptance of the adjudication of the P.W.D. Northern District Tenders Board.

The Chief Secretary has been asked to give his covering approval of the action taken.

2. The contract should be signed and the work proceeded with as early as possible. The Director of Education is very anxious to have the building ready for occupation in September when the new session begins.

3. All details of the work are contained in plans H/443/a and H/443/b, three blue prints of each of which are sent to you herewith.

DISTRICT ENGINEER'S OFFICE
PUBLIC WORKS DEPT.
NORTHERN DIST.

Haifa 8th March 1928.

Director of Public Works,
Jerusalem.
-----Subject:- Construction of Girls School,
Tulkarem.Reference:- Your 3/4/1 of 2nd March 1928.

Reference para 2 of your above plans etc. of the above school were prepared in Headquarters and transmitted direct to Education Department without reference to this office hence there is no knowledge of what processes they went through.

2. My knowledge of the structure started when I was called upon to adjudicate between District Officer Tulkarem and Local Education Authorities Tulkarem as to the safety of the structure - the top portion of building was absolutely unsound - undersized girders being employed - concrete made with poor quality sand etc. so I recommended its immediate demolition which work was carried out by Education Authorities.

3. I was then asked by D.C.N.D. etc. to prepare a specification for the reconstruction in a sound manner of the building and only did so on condition that tenders would be called for in a proper manner and I should be able to see that work was properly carried out before payment was effected.

4. These conditions were met - specification and cost was prepared - LP. 800.- deposited in Treasury to credit of the work and tenders duly called for by D.O. Tulkarem at request of Educational Committee Tulkarem.

5. I, at the request of D.C.N.D., acted as expert adviser to D.O. Tulkarem and as such intended to see that the structure was carried to a successful conclusion by the Educational Committee.

6. The file has been handed over to Mr. Carryer and therefore I cannot give references but the whole

/procedure.....

procedure is laid down therein, and it is clearly stated that the D.C. desired and requested me was to reclaim as much as possible of the loss on the structure and take such steps as were necessary to avoid any future waste of Public monies on this school.

7. The contract should be signed between Educational Committee and D.O. Tulkarem and contractor with the stipulation that no monies are to be paid until work have been approved by P.W.D. representative.

The Local Education Committee of Tulkarem convened on 12.7.26 and discussed the matter of completing the new Girls' School building as soon as possible. Roofing of this building will be completed within a fortnight and nothing will remain except carpentry, plastering and paving. It has been decided to put into public tender carpentry separately and plastering and paving. The Committee therefore asked me arrange with you for making lists of conditions applicable to these tenders vide your Drawing No.443/H/A of 15.10.25.

I therefore shall be much obliged if you will be so kind as to send me lists required as soon as possible so that work may be completed before 20.9.26 when school will reopen, please.

*A 40
as 13/11.*

Director,
Public Works Department,
Jerusalem.

I would advise the room marked latrines be used as a cloakroom until such time as an adequate water supply is available in Tulkarem for water borne drainage.

2. A latrine block should be provided in the play ground to the East or N.E. of the main block.

3. The total accommodation of the class rooms is 128 secondary grade or 160 primary grade scholars. The number of latrines should be seven.

4. If water borne drainage is possible latrines may be as shown but the door opening direct to the corridor is undesirable.

5. The height of the class rooms should be brought to the 4 metres minimum and windows *carried* upwards to as near the ceiling as building construction will permit. The height of the sills of the windows should be not ~~less~~ than 1.30 metres.

6. Cross ventilation of the class rooms should be ensured by the provision of high ventilating openings on the East walls. I note these are shown in class rooms A & D. Rooms B & C will ventilate into the hall. The hall should be provided with two ventilating openings to be kept permanently open high up on the Eastern Wall. This will aid the through ventilation of class rooms B & C.

7. The windows on the Western wall should not be less than 2.50 m. by 1 m. each in area.

I would suggest a conference between members of this Department, Public Works Department and Health, to discuss such modifications in the requirements of the Health department as may seem suitable to the climatic conditions of this country, as far as these affect lighting and ventilation.

2. In my opinion it should be laid down that in schools, including girls' schools, latrines be in a separate outhouse situated with due regard to the prevalent wind, and at as great a distance from the school building as the circumstances allow.

3. I would draw your attention to the size of the clerestory windows provided in class rooms for ventilation purposes. The minimum size of these presumably depends upon the orientation of the main lighting with regard to the prevalent wind. In the plan submitted by you and herewith returned, these windows would appear somewhat small but they are not, I presume, drawn to exact scale.

THE BOARD OF HEALTH

Subject: -- Public Health School
Reference: -- Letter to the Board of Health
August 1928

The Board of Health is hereby notified that the Public Health School is now open for the reception of students. The school is located at the corner of Main and Second Streets, and is a two-story building with a large hall and several classrooms. The school is under the supervision of the Board of Health, and the fees are as follows:

1. Tuition fee, \$10.00 per year.
2. Boarding fee, \$5.00 per month.
3. Laundry fee, \$1.00 per month.
4. Fuel fee, \$1.00 per month.
5. Miscellaneous fee, \$1.00 per month.

It is requested that you give your attention to the above information, and that you advise the Board of Health of any changes in the rates of the above fees. The Board of Health is also interested in the results of the school, and will be glad to receive reports from you.

Yours very truly,
The Board of Health

ASB

22

Subject :- Tulkarem - Proposed Girls School.
Reference:- Your W.3/4/1 of 10-8-25 and
attached plan.

The main lighting of the class rooms is on the west side. According to the Health Department, any lighting of class rooms except from the east is inconsiderable. It appears then that the rooms will be wrapt in an extreme tenebrosity. I do not agree that this opinion is valid in Palestinian conditions but would suggest as close a conformity with medical requirements as may be attainable.

2. The latrines are situated on the west side of the building. This would seem undesirable in view of the prevalent wind, In all cases where the school yard is sufficiently harim, I prefer latrines to be in a separate building as far removed from the class rooms as possible.

District Officer
Tulkarem.

Subject : Tulkarem Girls' School.

Reference: Your No. 239 of 10-5-25.

The plan for a new Girls' School prepared by the District Engineer has not been approved by the Director of Public Works who is prepared to make a new one provided he is supplied with precise and complete information regarding the proposed new building. The information required is:

- a. A schedule of the accommodation required
i.e. number of rooms latrines etc.
- b. The amount of funds available for the purpose and a guarantee from the Education Committee to the effect that they will pay the balance also should the expenditure exceed the amount at present available.

2. No doubt the schedule of the accommodation will be in proportion to the means at the disposal of the Committee. Please furnish me with the information required above after consultation with the D.I.E. and the Local Education Committee.

Subject :- Tulkarem Girls School.
Reference:- Your 324/116 of 13.7.25.

The plan you refer to is No. HA/456 a copy which can be supplied to you by the District Engineer, Northern District who prepared it.

2. This plan was submitted to me on 25.11.24 for my comments by the Director of Education.

3. I returned the drawing to the Director of Education with my comments and a sketch plan. A copy of this letter W.3/4/1 dated 29.11.24 is attached for your information.

4. On January 19th 1925 the sketch plan accompanying the above letter was returned to me and I was at the same time informed that owing to financial difficulties the Education Committee of Tulkarem would be obliged to build on a much less ambitious scale and that a plan would be drawn up by them.

5. In February 1925 the District Inspector of Education requested the District Engineer, Northern District to prepare plans for a school to consist of 4 class rooms, a hall, one additional room for the Head Mistress and Mistresses and W.C.s; the cost of same not to exceed LE. 800.

6. In conformity with para 4 of my W.3/4/1 dated 29.11.24 (copy attached) this request was referred to me on February 12th 1925.

7. My reply (April 7th 1925) was that LE. 800 was not sufficient to cover the cost the four class rooms let alone the additional rooms asked for.

8. On May 12th 1925 the Director of Education informed me that the Education Committee were ready, be understood, to pay even more than LE.800 if necessary.

9. A copy of my reply W.3/4/1 of 5.6.25 is attached.

It would appear that no plans are being prepared for the above school. At your suggestion Mr. Harrison of this Department communicated with the District Officer but was unable to obtain full information on the subject.

2. I would suggest that you obtain from those interested a schedule of accommodation required and particulars of funds available, then if you approve the schedule of accommodation and furnish this office with full particulars, preliminary sketches of the new school would be prepared.

Subject : New Girls' School, Tulkarem.
Reference: Further to my 1352/PE of
 9-12-24.

I would suggest to you that, when the new girls' school is built, wall-blackboards should be introduced. The method is to tint a stretch of plaster at one end of the room when it is laid and afterwards to paint it black as is done with the easel boards now in use. Easel blackboards should never, if it can be avoided, be used in schools.

Public Works will no doubt advise on the procedure.

CENTRAL REGISTRY
File H3/4/1
Date **11. DEC. 1924**
P.W.D. H. Qrs. JERUSALEM

Subject : New Girls' School, Tulkarem.
Reference: Your T/150/2/2 of 19th
November 1924.

There has been some discussion between the Director of Public Works and this Office regarding the plan for the proposed girls' school at Tulkarem, and I forward herewith copy of a memorandum from the Director of Public Works in which he makes certain suggestions, together with a rough sketch plan, which please return to me with your reply.

2. With regard to these suggestions, I have the following observations to make :-

(i) Para.1. a. I do not think it is necessary to have shutters in classroom VI, if a sloping shade is fixed to the wall above the window.

b. I agree with this criticism. It can be met as regards classroom I. by having a window added to the west wall of this room.

c. I agree, if the improvement can be made without involving too much additional expense.

d. I agree if the blackboard is at the northern end of the room. The lighting should be on the pupils' left whenever this is possible.

(ii) Para.2. a. It is not essential that the dimensions of the classrooms should be uniform, as the higher classes almost always have a smaller number of pupils. Moreover in all Girls' schools there are rooms devoted to kindergarten and needlework in which the ordinary desks need not be used, and which therefore may be of other dimensions.

b. See my remarks on para.1 c.

c. The headmistress's room should open into the hall and not into the passage.

d. No remarks.

FURTHER CORRESPONDENCE

e./

e. I should welcome the inclusion of a cloak room.

f. I have already requested that lavatories should be provided.

I prefer the main entrance as originally planned, as it is less restricted.

3. I would suggest that you should consult the District Engineer on these points, and, if the Committee agrees to the modifications suggested, the Director of Public Works has expressed his willingness to draw up a revised plan. As far as I can see, no additional expense is involved, except with regard to para 1 (c) and 2 (b), and undoubtedly the improvement there indicated would be an advantage if the money can be found.

4. The plan of the school should in any case be submitted to the Public Health Department for their observations before it is finally approved.

5. I trust that the Committee and the District Engineer will not misunderstand my attitude in referring the plan to the Director of Public Works. It seems to me that the splendid initiative of the Tulkarem education committee is best rewarded by the erection of a first rate model school, and with this end in view the more expert opinion we can obtain, the better.

Director of Education.

4
Subject :- Tulkarem Girls School:
Plan for new Building.
Reference:- Your 1352/PE dated 25.11.24.

1. I have the following comments to make on the plan (H.A. 456 dated 4.9.24) attached to your letter:-

- (a) Class-Room VI will, because it is facing due south, become excessively hot without shutters; and with shutters it will be too dark.
- (b) Class Rooms I and II will be poorly ventilated as they will get little benefit from the prevailing winds which are westerly.
- (c) The hall, which is presumably a place of assembly for the entire school and a place for exercise in bad weather would be better if raised above the general roof level.
- (d) Window in north wall of Class Room III will be opposite to the pupils so that they will not be able to see the black board.

2. I enclose a rough sketch plan for a school similar in general lines but with some of the weaknesses referred to above eliminated I would draw your attention to the following points in particular :-

- (a) Dimensions of Class Rooms uniform and based on size of Department of Education standard desks.
- (b) Ceiling of hall placed at a higher level than those of the class Rooms to allow of clerestory lighting and ventilation.
- (c) Teachers Rooms to the south instead of a class Room.
- (d) Class Rooms in the north east corner better ventilated because of the better ventilation of the hall.

(e) Coat Rooms, if required.

(f) Lavatories with convenient access.

3. Should you consider that the points raised are of sufficient importance to warrant the preparation of a new plan I shall be pleased to have it done in this office.

4. As a general rule, in future all plans for new permanent buildings will be prepared in this office and District Engineers have been instructed accordingly.

5. Kindly return sketch plan.

Subject :- Plan of New Building for Tulkarem
Girls' School.

I forward herewith plan for the proposed
Girls' School at Tulkarem which is to be
erected by the Local Education Committee.

The plan was made by the District
Engineer at the request of the local Committee,
and has been approved by this Department: the
only comment we have to make being on the
lack of latrine accommodation.

Mr. Harrison recently told me that you
would like to see such plans before final
approval is given, and if it has not already
been submitted to you by the District Engineer,
perhaps you will be good enough to examine it
and return it to me with your comments, if any.

Subject : Tulkarem Girls' School.
Reference: My Adm. 2/226 of 7.2.24.

I am directed to inform you that the following conditions for the sale of the building in which the Government Girls' School at Tulkarem is housed are substituted for those set out in my letter under reference :

- a) The building may be sold by the President of the Education Committee, on the understanding, however, that this permission to sell is without prejudice to any issue involved with respect to the present ownership of the property.
- b) The proceeds of the sale, together with the amount already in hand, will be exclusively devoted to the construction of a building on the piece of land which the Education Committee, in agreement with the Department of Education, will select.
- c) The proceeds of the sale will be disposed of as follows:- they will be paid directly into the general revenues of the Government, and an equivalent amount will be allocated to the Education Committee by ~~the~~ Special Warrant drawn against the appropriate Vote of the Department of Education.
- d) The work of construction will be undertaken and supervised by the Education Committee, through the President, but only after reference to the Department of Public Works and the Department of Health, whose approval of the plans will be a condition of the permission to construct.
- e). The building when completed will be handed over to the Department of Education for exclusive use as a Girls' School, free of rent and cost of structural maintenance, until such time as the ownership of the ~~M'sref~~ properties in Tulkarem will have been definitely settled, but in any case for not less than five years.

Copies to:

A/Treasurer.
